Patient

The Modena Patient Chair with Flex Back is designed with a flex frame connecting the seat to the back. This frame enables a modest amount of flexibility in the back only, which adds a level of comfort while waiting. The seat, arms and legs remain stationary providing ergonomic support as the user changes position while unique tapered arms with a faceted edge facilitate ingress and egress. This chair works well in healthcare waiting spaces and patient rooms. It has wallsaver back legs to ensure the walls remain in pristine condition.
